

LUBEMINDER
OIL & GREASE SYSTEMS

AUTOMATIC OIL & GREASE SYSTEMS

Dependable lubrication, made simple.

Division of: **SUBURBAN**
MANUFACTURING GROUP

SYSTEMS & CAPABILITIES

Automatic Oiling Systems

Automatic lube systems for heavy equipment machinery can improve operation and extend the life expectancy of the machine.

WHAT MAKES OURS BETTER:

- ✔ Super simple design, easy to install and operate
- ✔ Built to withstand rugged applications
- ✔ Machined & assembled in the USA

Automatic Grease Systems

Automatic grease systems lubricate points at the right time, with the right amount of grease, while in motion.

WHAT MAKES OURS BETTER:

- ✔ Pumping elements are Cam Driven, unlike a spring design
- ✔ Made with non-corrosive materials
- ✔ Low Level Indicator Switch comes standard

Custom Lubrication Systems

We have an in-house design and manufacturing team to develop and assemble custom systems for OEMs and other high-volume customers.

WHAT MAKES OURS BETTER:

- ✔ Custom pumps offer large volume delivery
- ✔ Integrated into your machinery or process
- ✔ Ability to design and dispense any fluid

BUILD YOUR KIT, YOUR WAY.

BENEFITS OF AUTOMATIC LUBRICATION

- ✓ Improve equipment reliability, reduce costly downtime and eliminate lubricant-related failures.
- ✓ Extend equipment and component life, prevent premature replacement of parts and machinery.
- ✓ Reduce manpower resources and lubricant consumption. Improve operating costs and profitability.

ANY LUBRICANT, APPLIED ANY WAY

We have the capabilities to apply lubricants in the desired fashion for your application. From progressive grease blocks, to oil brushes and rollers; LubeMinder can do it.

- ✓ Brushes, rollers and more for oil application
- ✓ Mono blocks for series progressive systems
- ✓ Injectors for critical lubrication applications

WHY CHOOSE US?

As a division of Suburban Manufacturing Group, we are dedicated to the design, manufacturing, and assembly of our top-of-the-line lubrication products. With a passion for turning ideas into reality, our experienced engineers bring over 20 years of expertise in the field of lubrication. We have also established strong partnerships with leading lubrication production companies to ensure that we can provide you with the perfect lubricant to complement your ideal system.

DESIGN

Bring your idea to life with our full-service design engineering team.

TEST

We prototype and test every design to ensure it'll suit the application.

BUILD

Our facility machines, assembles and packages our orders to your liking.

YOUR INDUSTRY, OUR EXPERTISE.

AGRICULTURE

Farm machinery and equipment rely on proper lubrication to operate efficiently and extend their lifespan.

CONSTRUCTION

Construction equipment can benefit from automatic lubrication to ensure smooth operation and prevent premature wear.

DEFENSE

US Navy Ships rely on lubrication for lifts and loading operations.

MANUFACTURING

Many manufacturing processes involve the use of heavy machinery and equipment that rely on regular lubrication.

FORESTRY

Logging equipment requires lubrication for operation and to maintain safety standards.

TRANSPORTATION

Fleets rely on lubrication for maintenance and safe operation while on the road.

UTILITIES

Utility vehicles have moving parts that require lubrication to operate and prevent corrosion.
