CONFIGURED SOLUTIONS

OPTIMAL PARTS, ACCELERATED PRODUCTION, & ENHANCED SUPPLY CHAINS

We've combined the latest in digital manufacturing with our proprietary products to offer on-demand configurable parts for equipment manufacturers. This platform strengthens your supply chain with a partner capable of providing instant quotes with rapid turnaround; and it's why Python's automated configurator system is leading the way in commercial-grade textile production.

RAPID TURNAROUND

Quotes for configured products are provided instantly and design-to-manufacture time is often dramatically reduced down to a number of days. Preset configurable options also support multiple design iterations and the ability to scale demand.

PROPRIETARY SOLUTIONS

All configured parts come with their own unique part number providing protection from competition and knockoffs.

PERFECT PARTS

Build the perfect part for your real-world application and receive design support with our in-house team of experts.

CONFIGURE YOUR PART:

- Wide Range of Sizes
- Multiple Fabrics
- Straps and/or Hose Guides
- Mounting Hardware
- Printing/Branding

CONFIGURED

Slide Axle Trailer: Python sleeve is cut to form a rod boot, protecting hydraulic cylinder rods from rocks and other miscellaneous road debris.

CONFIGURED

Combine Grain Head Attachment: Axillary hose sleeve with internal straps prevents hoses from dangling around the drive wheels.

CONFIGURED

Back Hoe Attachment: Hoses seeing heavy abrasion and pinch points are bundled and secured with internal grip straps.

Diesel Exhaust Fluid (DEF) Tank Cover: Python thermally insulated cover helps to maintain consistent fluid temperatures to eliminate costly down time.

CUSTOM

Concrete Pump Safety Cover: The concrete industry has recognized that safety is a must. The widely recognized Python Cover helps contain slurry and protect operators during pipe bursts.

CUSTOM

Commercial Paving Equipment: DEF tanks are located in tight and temperature sensitive areas. Python's DEF tank cover design will help provide consistent fluid temperatures to the SCR.

CUSTOM

TAYLORMADE SOLUTIONS:

As an ISO-certified business, we're capable of manufacturing quality solutions for today's unique equipment. From hay catchers to bellows covers, our staff is available to help you succeed in any environment.

NO MATTER THE APPLICATION, WE'VE GOT YOU COVERED!

Python Protective Sleeve + Covers, has an extensive amount of sewing processes and machines that are utilized to produce standard off-the-shelf products. In addition to the mass-production equipment, Python's in-house expertise and wide range of custom machines are available to assist in creating your custom and unique solution.

EXPERTISE:

- Drive Shaft u-joint Coupler Guards
- Muffler Blankets
- DEF Tank Covers
- Thermal Hose Wraps
- Energy Chain / Hose Guide Covers
- Derrick Hose Bundles

INDUSTRIES:

- Military & Defense
- Heavy Industrial
- Construction
- Agriculture
- Transportation
- Oil & Gas
