

# ELEVATE YOUR OPERATIONS

## INVEST IN RELIABILITY AND SUSTAINABILITY WITH OUR PREMIUM ENERGY-EFFICIENT COMPRESSED AIR DRYING SYSTEMS

The oil and gas industry is constantly changing, and keeping your equipment up to code is vital to stay competitive in such a high-demand market.

Meet Quad O requirements and C1D1 / C1D2 compliance to keep your operations flowing smoothly with Tsunami Compressed Air Solutions.

Invest in reliability and sustainability with our premium energy-efficient compressed air drying systems. Engineered to exceed industry standards, our product redefines efficiency, reliability

### ✓ NO FREEZE UPS

Experience uninterrupted operations with consistently clean, dry air for your operations.

### ✓ MINIMAL SERVICING

Built with robust materials and cutting edge components, our product delivers unmatched longevity and minimal maintenance.

### ✓ UNMATCHED EFFICIENCY

Our simple technology optimizes energy usage, offering significant reduction in operation costs and air demand.

### ✓ MOBILE FRIENDLY

Our proprietary spring loaded desiccant cartridges prevent breakdown during transportation between drilling sites.

## TSUNAMI IS PREPARING YOU FOR EPA MANDATES

The EPA has recently passed a mandate in an effort to reduce CO2 emissions by 95% in the oil and gas industry. These new regulations are known as "Quad O" and are being implemented by oil and gas operations around the country in an effort to meet new air requirements.

By switching to compressed air, many operators will get clean air with little to no down time. Tsunami has the simplicity and innovation to get you there.

## PNEUMATIC TIMER

Tsunami's Pneumatic Timer is ideal for hazardous locations and energy savings - C1D1 / C1D2 compliant.

This timer doesn't require electricity, so it can be placed as close or far away to your application as needed to get the results your operations require.

## ULTRA DRYER

Tsunami Ultra Dryers are designed and rated for 40-400 CFM depending on your air dryer needs.

Our configurable dryers guarantee efficiency when added to a compressed air system.

Make the Ultra Dryer ultra efficient when you utilize an open dry contact relay from your controller and tie the signal into our controller.

## ENERGY SAVER KIT\*

Tsunami's Energy Saver Kit eliminates the dryer purging when the air compressor isn't running. By receiving a signal from the compressor's unloader, the Tsunami dryer will turn off when the compressor turns off.

**\*ULTRA MODELS ONLY**

## SIZING & ORDERING

### PNEUMATIC TIMER

DESCRIPTION	ITEM #
 PNEUMATIC DRYER CONTROLLER	21999-0951

### ENERGY SAVER KIT

DESCRIPTION	ITEM #
ENERGY SAVER KIT	21999-0712

 = C1D1 COMPLIANT

### AIR DRYERS\*

MAX FLOW	DESCRIPTION	ITEM #
40 CFM	ULTRA-10 SERIES DRYER	21999-0710
60 CFM	ULTRA-15 SERIES DRYER	21999-0715
80 CFM	ULTRA-20 SERIES DRYER	21999-0720
120 CFM	ULTRA-30 SERIES DRYER	21999-0730
20 CFM	MEMBRANE DRYER	21999-0357

**\*INQUIRE FOR LARGER SIZES**
